Prof Dr Timi Ecimovic is an eminent international scientist, independent researcher, lecturer, founder and head of SEM Institute for Climate Change retired in May 2004, appointed Chairman for life, which authorities has returned by end of June 2013, co-founder and first Chairman of The World Thinker's Forum established in Vienna, Austria during 2001. Since June 2004 he has been appointed professor and chair of environmental sciences at Ansted University. In October 2012 he was appointed the Rector of WPF University in Athens, Greece and the Vice-Chairman of the World Philosophical Forum (2013). Since 2013 he is NED of HLHC, Xiamen, China. He is international consultant of the UN – FAO and international consultant for sustainable development and sustainable future of humankind of Universal State of the Earth - USE. On June 21st 2016 he has received Diploma of USE-WPF, the Professor of civic knowledge. On 8th October 2016 he was appointed as The Chairman of the Humanity, Nature, Space and Environment protection Committee of the USE, the Supreme Council of Humanity - SCH from Athens, Greece and London, UK. He is member of the Universal State of Earth – USE and the Supreme Council of Humanity - SCH since 2015.

He is researcher working on: Nature; the Nature, Space and Environment protection; the Climate change system; System thinking; Globalization and global studies; Networking, Complexity and Swarm research: Sustainable Development and Sustainable Future of Humankind. He was among the pioneers researchers (1986 – 1994) to apply nature, space, and environment protection in a local community by activities we call today Local Agenda 21 Processes – a holistic program for survival of our civilization under new challenges of the third millennium. **“Commencing from Local Community Sustainable Future and moving towards Sustainable Future of the Global Community of Humankind”**.

During 2014 he completed 50 years of research work (1964 - 2014). This year he completed 50 years of been Dr. Vet. Med. Since 1986 he worked on the protection of Humanity, Nature, Space and Environment and completed 30 years of research.

He is independent researchers with many domestic and international publications and talks. Together with many researchers in co-operation worldwide within philosophy, operational research, global studies, case studies and complex problem solving research, system thinking, requisitely holism, networking and complexity, swarm research, integration and disintegration of matter and energy and universal upbringing, education and lifelong learning. He is contributing a systemic, requisitely holistic and a better understanding of the present. His latest research within the system theory, system thinking, networking, complexity and swarm research may provide a possible answer enabling people to better understand our world of humans.

For research on the climate change system and the book “System Thinking and Climate Change System (Against a big “Tragedy of Commons” of all of us), Ecimovic, Mayur, Mulej and co-authors, 2002, he was nominated for the Nobel Prize 2003. His work on “The Information Theory of Nature” was his second nomination for The Nobel Prize during 2007 in Physics. His third nomination for The Nobel Prize in Physics 2010 was for “The Environment Theory of the Nature”, published in the book “Three Applications of

the System Thinking”, Ecimovic, 2010. Within last 10 years he has contributed trilogies: “The Nature”, “The Sustainable Future of Mankind” and “The Life 2017” – please see at: www.institut-climatechange.si

During 2011 (1st of May) he has published results of his research on the Nature, the soft cover paper book and CD “The Principia Nature – The Nature and Homo sapiens Global Community”. It is first presentation of new understanding of the basics of the Nature. At the end of 2011 he was nominated for the Nobel Prize for fourth time in Physics 2012.

On 25th September 2011 with ANSTED University and others as international group of researchers he has published digital (pdf) declaration “The World Thinkers’ Panel on the Sustainable Future of Humankind”, “WTP – SFH”, which has been announced at Xiamen, China as English/Chinese “Xiamen Declaration”. The declaration present new approach and it is global panel for work on the sustainability of the global community of humankind.

By February 2013 he has published fourth, fifth and sixth book on sustainability and in March 2014 digital book “The Nature and the Requisite Holism”, Ecimovic and Mulej. On May 7th 2014 digital book “The Anthology 2 – 2001 – 2014” was published. In May 2014 he has opened new research on “The New Sciences of Network & Complexity and The Nature”. During 2015 five books were published, first by weekly magazine “Mandrac” from Izola, two books on universal upbringing, education and whole life learning in English and Slovene, the book on natural social responsibility and in December the book “Nature 2015 – Anthology 3”.

During 2016 he published “The Philosophy of Sustainability – The Sustainable Future of Humankind” (the first book), digital book as support for “Next Europe” long-term project of European Academy of Sciences and Arts – EASA. The two languages - Slovene and English - book was published in 2016 dealing with universal upbringing, education, lifelong learning and sustainability of humankind. The next was paper book with soft cover in Slovenian as bibliophilic edition, on universal upbringing, education, lifelong learning and sustainability of Slovenians. The next book was digital book in English dealing with “The Citizens of the Earth XXI” (the second book). In January 2017 he published the digital book “The Nature 2017” been third book of the trilogy “The Life 2017”.

Prof Dr and Dr h c Timi Ecimovic is member of the European Academy of Sciences and Arts - EASA, former Associated Fellow of the World Academy of Arts and Sciences - WAAS (elected in March 15th 2014) and resigned in 2015. In the Slovenian book “Personalities” Great Slovenian Biographic Lexicon. ISBN 978 – 961 – 01 – 0504 – 6, 2008, A – L, p. 225 – Timi Ecimovic, he has been listed, In the Russian book “Global Studies – Encyclopedic Directory”, I. V. Olyin, I. I. Mazour, and A. N. Chumakov, ISBN 978-5-98281-302-2, 2912 – at pp. 80, Timi Ecimovic has been listed as researcher of Global Studies.

He is the laureate of the Gusi Peace Prize International from Philippine 2012.

He received certificates “The Citizen of the Earth - XXI” and “Aristocrat of the Earth” from World Philosophical Forum - WPF. On June 21st 2014 he received award “The Emeritus Citizen” of the Municipality of Izola and the Local Community of Korte.

In November 2015 he received Slovenian special recognition for social responsibility.

In December 29th he received certificate of been recorded in the US Marquis Who’s Who, thirty third edition 2016 and is recorded on pp. 558 as one of 54.250 members of the global community of humankind, “who have demonstrated outstanding achievement in their own fields of endeavor and who have, thereby, contributed significantly to the betterment of contemporary society” (statement from the certificate).

In July 2016 he was listed among “2000 Outstanding Intellectuals of the 21st Century” by IBC Cambridge, UK and received Diploma for “Outstanding contribution” in the field of Philosophy.

During 2016 he co-authored the trilogy “Stop Hating Own Children and Grandchildren”, in Slovene, by Prof Emeritus Dr, Dr Matjaz Mulej, Maribor, Slovenia, EU, et al, ISBN 978-961-6620-84-0.

He has worked on translations of interesting books and communications (after 1990 for instance book on Permaculture in Croatian language) and edited number of scientific books of which in December 29th 2015 the book “Applying the New Science of Networks to Planetary Agriculture – The Impact of the Climate Change and Demography on food availability up to 2100”, Weiler and Demuyneck, Belgium.

His recently updated home page www.institut-climatechange.si where he presents some books, presentations and Internet communications 2000 – 2017 and is serving as historical home page. On Internet are numerous digital information and also on SVAROG portal of Slovenia National and University Library – NUK. His home page is anchored with Izola Municipality Library in coastal part of Slovenia.

He lives in his eco home in Upper Medosi a part of Korte Village within the Izola Municipality, Slovenia, and EU.
